

# Big Book Project: some common problems

...in no particular sequence

Hyphenation on “big texts” or title texts.

In this example “Ac-cessories”.

Switch off hyphenation in the Paragraph Styles.

Each Rage Guy is a work of a french artist very upset and a unique combination of skin color, hairstyle, facial hair, and accessories. The last 10 of every 100 will be animated and even

Should not show page number on a blank first or last page.

If the first page is a heading page, should similarly not have page number.

Photography: dark zones can often be improved by lifting shadows in Photoshop Lightroom filter.

Remember the baboon in Photoshop exercise.

Content too close to page numbering.

Should leave some air.

acknowledge her contribution to fashion  
tributing fashion editor for British Vogue.

CULTURE | 25

Text on colour: not enough contrast.

- Small writing crossing book spine.
- “Intricate” content close to book spine.
